INTRODUCING

Riggies™

Adjustable outrigger shock cords that hook directly to any outrigger line lock and pad eye on gunwale without additional tools or equipment needed.

Designed to withstand rigorous offshore use.

The patented Rig Tight® Tensioner System offers a simple, all-in-one solution for adjusting your outrigger lines.

HOW TO USE:

- Connect Riggies™ clips to pad eye on gunwale and halyard pulley.
- To tighten, slowly pull tag end down through the bottom of the tensioner.
- To loosen, slowly pull tag end up through the top of the tensioner.
